**Ernie's Goal Game**  
**How to play - part 1**

The object of the game is to collect sets of the cards showing the three parts of a good goal: the **GOAL** itself; the **ACTION** to make it happen; and any **HELP** needed to make it happen.

The dealer deals 4 cards to each player. The remaining cards are placed face down in a pile in the middle. The non-dealer goes first - if they can make a set of **GOAL**, **ACTION** and **HELP** cards from their hand, they put them on the table face up, and get a point.

**How to play - part 2**

They then pick up three new cards from the pile, so they have 4 in their hand again. Then the next player does the same.

If a player is stuck because they can't make a set of three, they can throw away a card - this is put onto the bottom of the pile, and a new card is taken off the top.

The game ends when the pile has all gone, and the player with the most points wins!
