

Parent Feedback

From our new Reception 2023 parents regarding our Admission process.

The open morning gave me a good feel for the school. It was lovely to visit the school and meet the staff. It allowed parents and children an insight of the classroom, which is especially important for new parents. We got all the info we needed.

The Delamere trip was absolutely brilliant. My daughter seems to have really enjoyed her first term. She chats happily about activities she has done at school when she gets home.

Very satisfied. I felt like all relevant information was given in one go (information evening/take home pack) but then reminders were helpful such as bring wellies in, snack money etc. Made it a bit less overwhelming.

The welcome pack is lovely, a nice touch and helped my child to feel excited about school. The book in particular was amazing. This really helped ease my sons nerves on his first day.

Fantastic! The welcome book was a really good help for reading and pointing out the classroom and begin to understand a new routine. I personally like printed information sheets rather than phones so I liked being able to have all the information in-front of me to read over.

Really impressed with the welcome phone call and welcome email. The admin staff were really friendly and happy to answer any questions I had. Felt a really warm welcoming from the start.

My son is happy to go into school every day. I feel he has a good balance of having help in school and being encouraged in his independence.
